

Vivid Hybrid™ is a 3 layer hybrid dental ceramic suitable for CadCam systems and provides an excellent cost effective and time saving alternative to conventional composite restorations fabricated in the lab or surgery.

A combination of ceramic and resin polymers with a high load capacity and elasticity making Vivid Hybrid suitable for full crowns, inlays, onlays and veneers.

Vivid Hybrid™:

- ✓ Designed and manufactured in our Bristol milling centre
- ✓ Has a flexural strength of over 180 Mpa
- ✓ 58% translucency
- ✓ Suitable for single restorations
- ✓ High load capacity and elasticity
- ✓ Can be polished or light cure glazed
- ✓ Composite additions also an option
- ✓ Is backed up by Bristol Crowns service excellence and supplied with a no quibble 1 year guarantee

/ VIVID HYBRID™
